WHERE SHOULD I GO FOR COLLEGE?

The term college includes technical colleges, 2-year community colleges, vocational or trade schools and 4-year colleges or universities. There is not one type of college that is perfect for everyone, so it is important to explore your options.

Private 2-year College/ Vocational/ Trade Schools
Private 2-year, vocational or trade schools provide education for a specific career. Students that graduate from these schools can become a chef, massage therapist, or paralegal.

Public and Private 4-year College/University
These schools offer bachelor’s degrees, usually completed in 4 years of full-time study. Private schools typically charge a higher tuition but can offer a significant amount of scholarships to make attendance affordable. Students that graduate from these schools can become a robotics engineer, business analyst, or nutritionist.

Make sure to review ANY school’s accreditation and job placement rates.

This chart shows common characteristics for each type of college in Washington state.

ABOUT COLLEGE AND CAREER: TYPES OF COLLEGES

- 2-year community colleges
- vocational or trade schools
- 4-year colleges or universities
In an apprenticeship, you can **earn money while learning** through a combination of hands-on, **on-the-job training (OJT)** and related academic classes. Apprenticeships are competitive and rigorous, and are typically more demanding than **internships**.

**WHAT JOB CAN I GET AS AN APPRENTICE?**

Apprenticeships are available in a variety of industries, such as **aerospace, advanced manufacturing, construction, energy and marine technology**. Examples of careers include:

- Aircraft mechanic
- Automotive mechanic
- Bricklayer
- Carpenter
- Cement mason
- Electrician
- Fire fighter
- Plumber
- Truck driver
- Welder

**HOW MUCH WOULD I GET PAID?**

Apprentices earn money while in the program; the pay increases as they progress. Upon graduation, they become “journey-level” workers.

**Starting apprentice** – minimum $18/hr + **benefits** (e.g. medical, dental and vision)
- For example, Seattle City Light apprentices earn at least $30/hr to start.

**Journey-level worker** (apprenticeship graduate) – minimum $30/hr + benefits (e.g. medical, dental, vision and retirement)
- For example, King County plumbers and pipe fitters earn around $89/hr while cement masons in Yakima earn $45/hr.

1. **Make sure you meet the requirements.**
   Generally, these include:
   - High school **diploma**
   - Specified abilities (may require math)
   - Valid driver’s license and reliable transportation

2. **Find a program and apply.**
   - Each program has unique procedures for applying.
   - To learn more about the process, talk to your high school counselor or visit [lni.wa.gov/licensing-permits/apprenticeship/become-an-apprentice](lni.wa.gov/licensing-permits/apprenticeship/become-an-apprentice)

**APPRENTICESHIP**

**work + education** → **career**

Apprenticeships are offered by employers (such as Boeing), **trade unions** (such as electricians or roofers) and independent programs. **Programs typically last 2-5 years** and are a good way to start a career in a well-paying field. Apprenticeship programs offer certifications, licenses and/or college **degrees**.
HOW DO I RESEARCH COLLEGES?

- Visit: wcan.org/resources/college-map for a list of colleges in Washington state
- View college websites
- Sign up for college mailing lists
- Attend college fairs
- Tour colleges (virtual tours are a great option!)

College search takes time. Schedule a few hours each week to work on researching colleges.

WHAT SHOULD I CONSIDER?

Type of college – technical, 2-year, 4-year
Location – distance from home, weather, urban or rural, etc.
Degrees available – associate’s, bachelor’s, certifications and apprenticeships
Programs available – subject areas or majors offered
Public vs. private – public colleges are partially funded by government funds and private colleges are not directly publicly funded
Special focus – colleges that focus on a specific interest or student population such as arts, single-sex, religiously affiliated and specialized-mission colleges
Diversity – the types of cultures, languages and demographics represented on campus or in the community
Size – number of students, campus size, class size, city population, etc.
Cost of attendance – in- or out-of-state tuition, college fees, books, transportation and housing
Selectivity – measured by the percentage of students who get accepted based on admission requirements
Graduation rate – number of students who graduate within 4 or 6 years from that college

GOOD TO KNOW:

Community colleges offer 2-year degrees with a path to transfer to a 4-year school and some offer bachelor degree programs.

DON’T FORGET:

Consider the admissions requirements and determine if the school is a reach, solid, or safety for you. It is recommended that you apply to at least one school in each category:

Reach – You might not get in, but it’s worth applying to because it’s your dream school
Solid – You’re a competitive applicant and will likely get accepted
Safety – You’ll definitely get accepted, and it’s a backup in case the others don’t work out

TALK TO: Your high school counselor
College and career center adviser
College admissions counselors or representatives who visit your school
Family members, teachers, mentors and community members who have been to college

NOV: GRADE 11
College costs are different at different schools. Each college estimates the **Cost of Attendance (COA)** by adding together some or all of the below expenses:

- Tuition
- Fees
- Room and board
- Transportation
- Books and supplies
- Other living expenses

### How Much Does It Cost?

The cost of college can be overwhelming, but there are many different resources to help you pay for college. People often use various sources of financial aid to pay for college in addition to what they may have saved or earn from their job. Financial Aid resources include any **grant or scholarship, loan, or work study** offered to help you meet your college expenses.

### How Do I Pay for It?

The cost of college can be overwhelming, but there are many different resources to help you pay for college. People often use various sources of financial aid to pay for college in addition to what they may have saved or earn from their job. Financial Aid resources include any **grant or scholarship, loan, or work study** offered to help you meet your college expenses.

### How Do I Qualify?

**Financial Aid**
- In order to be considered for financial aid, you need to complete the **FAFSA** or **WASFA** your senior year and every year while in college.
- Each college determines financial aid eligibility for federal, state and institutional types of aid based on awarding policies at that campus.

**Scholarships**
- There are thousands of scholarships that can help you pay for college. Different scholarships have different application requirements. Most scholarships require that you complete the **FAFSA** or **WASFA**.

### Types of Financial Aid:

**Scholarships** – Money awarded to students based on academic or other achievements to help pay for education expenses. Scholarships generally do not have to be repaid.

**Grants** – A form of gift aid, usually based on financial need. A grant does not need to be repaid, unless, for example, you withdraw from a school and owe a refund.

**Work Study** – A financial aid program (federal or state) that allows a student to work on-campus or with approved off-campus employers to earn money to pay for **college expenses**.

**Loans** – Money you can borrow and repay over time, with interest added in most cases.

### Keep in Mind:

Knowing the different types of financial aid is only the first step. You may not need to take out financial aid to cover the full cost of attendance.
